Our File: SBG-198

Dear Chairman Weiss,

We have reviewed the plan prepared by DrawME and offer the following:

1. Please verify whether the plan has been submitted to SHPO.
2. Please verify that the retaining walls provided can be constructed based on the distance from the property line and the geogrid required for an 8' tall wall.
3. Please note that plans have been provided to the building department for review for a building permit. A full building permit application based on a plan approved by the Planning Board must be submitted along with the appropriate building permit application, application fees, and escrow if required.

Please advise if you have any questions.

Very truly yours,
